Computer

In today's technology-driven world, it's important now more than ever to prepare students for the future. Teaching robotics to young students throughout their schooling can increase their ability to be creative and innovative thinkers and more productive members of society. By teaching our students the basics of robotics, we can open a whole new world to them and exciting opportunities that they wouldn't have access to otherwise. Accordingly, the robotics class will be held starting from this week during one of the computer periods as will appear in the weekly plan.

French

Kindly Note that French assesment#1(term 2) will be held on Wednesday, February 19, 2020. Students have to study:
